To

Rajamantrapravina
K.V. Anantaraman Esq., B.A.,
2nd Member in Council,
Government of His Highness
the Maharaja of Mysore,
Bangalore.

Respected Sir,

I humbly beg to invite your kind attention to letter - - - M.C.6397/Fed.340-37-12, dated 30-12-38 from the Secretary to the - Government of Mysore, Local Self Government department, to the Senior Surgeon, Bangalore, and to state that the case launched against me wa withdrawn by the Government in August 1939. But, so far, neither the order of suspension has been cancelled, nor am I being paid subsistenc allowance. Being, therefore, unable to maintain my large family of - 8 dependents, I submitted a representation to the Senior Surgeon on 30-11-1939 begging cancellation of suspension orders. Unfortunately I have not had any reply till now. Forced by starvation during this long period, I have submitted this representation to your honour, and I humbly beg that you will kindly consider the pangs of my starving children and cause payment to me of the subsistence allowance and c... the orders of suspension.

Praying for an early reply,

I beg to remain, Sir,

Your most obedient servan

C. Ramakrishnaiah Setty

Bangalore City.

43) 2nd Addl. visitor

To work from Mr. Ramachandrans audit-report what the work hours, hands, quantity, etc. these hours, if any, should be made good from the Stockholders deficit & the balance (or the whole if there are no such hours) obtaining for giving for such ruling to the officers who have been surcharged.

Co 31/7/39

Recd with Refce files from C.B on 5/8 and orders were obtained for preferring claims for submitting this file vide slips below. Stock

Reg T.

V.

44) Subd. From Mr. Ramachendrans audit-report it is seen that the loss on the genuine Sulphate account amounted to Rs. 20,871-8-0 and a total loss Rs 20,835-7-0 in value.

The recoveries made from the officers in the G.O dated 2.8.39 are as follows:-

Mr. V. Ramanna Mudaliar	Rs 15-7-2-8 ✓
Mr. S. Chokkam	Rs 4878-1-6 ✓
Mr. Hiranyayya	4952-5-6 ✓
Mr. L. Ramakrishna Rao	9020-1-0 ✓
	Rs. 19,007-10-8

These shortages are covered as stated in para 2 of the G.O. by making false entries in the books, casting wrong totals, charging officers quantities against issues, charging twice for same issue and by charging issue of genuine pills to genuine sulphate account.

45) In para 9 (audit report) it is stated that the auditor has pointed out that the real surplus should be 23 lbs 10 ozs 6 drs as against 4 lbs, 14 ozs 6 drams of Quinine pills.

NOTE.—Contn. Sheet.

Proceedings of Dr. C. Venkatesiah Actg. on Stockholder

214. Med. Stores

File No. of 194 | General and Revenue Secretariat

Serial No.

In para 11 of the audit-report, the auditor has pointed out another shortage of Rs 267-9-3 in respect of certain medicines

In para 13, a consignment of Saly argan costing Rs 119-14-9 is said to have disappeared

In para 14, a shortage of Rs 325-15-0 on the packages account- on the particulars available from the imperfect- accounts has been pointed out by the auditor

In paras 16, 17, the auditor refers to certain differences in stocktaking and to certain articles written off under the orders of the S. S. adding in para 18 the instances of omission to prepare bills and the delay in recovering outstandings The auditor has also pointed out the departure from the prescribed procedure by which the Stockholder was able to commit fraud and yet satisfy the Supt of the Med. Stores

(16) The Comptroller has later pointed out a loss of Rs.5,500-4-6 on account of loss of plague vaccines The explanation of Dr. P. Shama Rao regarding the loss has been accepted by the S.S. who has recommended to Govt that the cost of packages Rs 325-15-0 and of vaccines Rs 5-500-4-6. may be written off the accounts

(17) Assuming that this recommendation

Representation of Sm. C. Secretarial Staff ex stockholder
214 Med. Stores '35

Serial No.

of the S.S. is acceptable to Govt, the other losses, not to speak of the frauds and their value to which the auditor has referred in para 19 of the report, are as follows:—

(i) about 19 lbs of Quinine pills value not available
(ii) Shortage on certain medicines costing Rs 267-9-3
(iii) Shortage re Wearers Lines Dispensary Rs 50-8-0.
(iv) Sabjargeer Rs 119-14-9

Total Rs 438-0-0
plus cost of 19 lbs of Quinine pills

52) If however the loss on account of packages & bottles of plague vaccine is also included the total loss incurred will be

Plague vaccine → Rs. 5,500-4-6
Packages cost → 325-15-0
other medicines (Para 51) → 438-0-0
Rs 6,264-8-6, plus cost of 19 lbs of Quinine pills

53) The question of giving proportionate relief to the officers arises only, if the first alternative is accepted - para 51. supra - as the cash security of the ex stockholder amounts to only Rs 5000/-

54) If, however, it is considered that the recoveries made from the officers under the orders of Govt dt 2.8.39 should naturally be mitigated by issuing again a first charge on the security deposit of the Stock-holder—

Flag V.

NOTE Comm. Sheet.

Prosecution of Sri C. Venkatesiah Setty on Stockholder

214 Med. Stores

File No. of 194 General and Revenue Secretariat

Serial No.

who need a first responsibility to keep proper accounts, then perhaps the question of estimating the other losses need not be pursued. This is supported by the Director Surgeons' view that no other sums can be definitely fixed and recovered from the stockholder. Relief may be given by decreasing the amounts to be recovered from the officers and the Rs 5000/- allocated proportionately. Necessary steps will be put up after orders are passed on the enactments to be adopted

Med
21.8.40

55) The other losses, excluding besides quinine & packages cost, amount to Rs 438-0-0 as noted in para 51 above.

The sum remaining out of the Security deposits after deducting this would be Rs 4582-0-0

As regards the other losses on vaccine & quinine the amounts to Rs 5520-4-6 and Rs 325-15-0 (Packages cost) S.S has recommended the write off of these amounts. Subject to orders in reference to para 43. Orders are required on para 55 raised in para 54 the cost of 19 lbs of quinine sulph will have to be ascertained from

Transcription of Jm. C. Mechanical Sctg on Stockholder Med. Stores

General and Revenue Secretariat | File No. Med 3190 5 1402 of 194.. | [App. F. III-2

Serial No.	
	From Comptroller to Govt No S-31/C. LAD d 21.3.41 Forwards a detailed Statement of excesses & shortages during audit for the year 38-39 of the Med. Stores, states that the Dept has not furnished references re Stocktaking reconcilement of figures etc, and that the Statement was prepared in his Office, the value of certain items being not available to him the total value of shortages. Adds that the opinion of the S.S. Surgeon obtained whether any items included in the list are of a normal nature etc So that the total value of shortages may be Determined.
75)	Subd. The Comptroller has forwarded a Statement of excesses & Shortages observed during the local audit of the Medical Stores for the year 1938-39 for the information of Govt. These relate to period prior to the taking of charge by the present Superintendent Mr. Reden
76)	The Comptroller points out that certain red ink entries of balance of Stock made on 2.5.39 were adopted for purposes of future transactions, that these were stated to represent the Stock as on that date and that no references were available re the stocktaking arranged and the officers who verified the Stock. He also said that no action was taken to reconcile the differences nor to obtain orders of Govt in the matter.

1) No 4345 Secy 3/4.

NOTE: Contn. Sheet.

execution of Mr. C. Venkatesiah Selly ex stockholder

File No. 3190 / 57402 Medical Stores of 194

General and Revenue Secretariat

Serial No.

The Statement of the Shortages now furnished by the Comptroller is incomplete and has to be made complete by filling up certain blanks etc so that the total value of the Shortages may be fixed. It is suggested that the opinion of the A.S. may be taken as to whether any of the items included in the Statement can be accounted for as due to normal drying, Shrinkage etc.

The exstockholder Mr. Venkatesiah Selly has been placed under Suspension from 29.6.38 the question under consideration in this file being the amounts due to Govt from the exstockholder which should be adjusted out of his security deposit. Refer is invited to paras 2 to 6 & 7 Supra. The Comptroller has not distinctly shown what items & losses or Shortages have to be so recovered as stated in para 7 Supra

The S.S. however sent a report re the taking of actual Stock balances etc in the Medical Stores on 17.3.41 which has been adequately scrutinised. Sanction has been solicited for to write off a sum of Rs 25 being value of certain discrepancies in the accounts. D 4345 7 Secy 3/4.

The S.S. may perhaps be consulted unofficially x Capt Hutchins (A) to furnish complete information on the question of recoveries to be made from the exstockholder and also on the points raised by the Comptroller

C. 1335-24/1 Title
27.9.1941

82 Retransmitted with compliments:-

The excesses and shortages sent by the Comptroller, come under three classes. Enclosed are the statements received from the Superintendent, Medical Stores, noting down the cost against these items. The cost of shortages (statement "A") is considered as of a normal nature considering the volume of transactions in the Medical Stores. The drugs shown in statement "B", are not considered as shortages in as much as some of the drugs are not properly charged off in the ledgers and so resulted in excess and shortage in accounts. Explanations are also furnished in the statement against each item.

83) Some other major items detailed in statement "C", the cost of which may be assessed as recoverable are also reported to be due to not charging off in the ledgers of some of the items which were actually supplied.

84) In this connection, favour of reference

File No. 4402 of 194 | General and Revenue Secretariat

Serial No.

D 4845

Reference is invited to this office letter No.G.C. 5[illegible] dated 17th March 1941. As the shortages now pointed out by the Comptroller refer to long period of time and the losses are partly due to great confusion that was found in the books, the Stock-holder cannot reasonably be held responsible for these as they were not pointed out in previous months and were not contemplated in the prosecution.

#5 The Stock-holder has been acquitted in a court of law and Government have ordered that it is not a fit case for Appeal. I am therefore of opinion that there is no case for making any recoveries from the Security deposit of the Stock-holder, as mentioned at Para 67 supra, and that the punishment suggested by my predecessor in office is suitable.

Protection Br.

25/9/41

Offg. Senior Surgeon.

Subd for orders. Refer Members' remarks in paras 34 & 43 Supra.

The points for orders are

(i) writing off the losses referred to in para 63 & 64 Supra value Rs 5500-4-6. plus Rs 325-15-0

(ii) S.S. has come to the conclusion that no recoveries are due to be made in respect of any specific losses from the Security deposit of the Stockholder of Rs 5000/-

(iii) He has also expressed the opinion that there is no case for making any recoveries as suggested in para 67 Supra

NOTE.—Contn. Sheet.

Representation by Mrs. C. Venkatramiah Esqr. Exp. Stock-Holder, Medl. Stores, Bangalore.

File No. of 194 | General and Revenue Secretariat

Serial No.

No. 251/spl dated 8-12-41

Reference:- U.O. No 98/41-42 dated 24-10-41 from the Development Secretary to Government calling for further remarks on Statements B & C re certain shortages observed in audit of the Government Medical Stores, Bangalore, for the period ending June 1940.

No. 299 C&AD dated 6-12-1941.

Returned with compliments:-

1. The remarks offered by the Senior Surgeon against the items included in the statements B & C have been verified locally with the following results:

2. Items 1,2 and 3 of statements (B) (viz., Chloroform Powder, Neosalverson tubes and Soda Carb pure) and item No 12 (Electro Magnetic Battery) of Statement (C) have not been reported as shortages in the course of audit, the items having been scored through in the list of shortages submitted to Government. How these items have been included in the Statements does is not understood. They may however be deleted from the respective statements.

3. Statement B.

(1) Item No 4 Veronal Substitute.

It is seen during the present verification, that the drug in question has been accounted for on two different pages of the ledger and that there is no shortage.

(2) Item No 5 Bed Pan Brass.

Out of 4 shown as short, one has since been taken to stock on 1-7-1940/21-3-1941 as stated. Hence the net shortage is only 3, whose value amounting to Rs 15-3-0 is to be recovered and credited. According

SECY. DEV. DEPT. 9. DEC. 1941 GOVT. OF MYSORE

Representation by Mr. C. Venkatesiah Setty Ex-Stock-Holder Mad. Stores Bellary

Serial No.

to the remarks of the Senior Surgeon against the item, the 3 bed pans are of tin. As seperate account for brass and tin bed pans has not been maintained, this fact could not be verified.

5. Item No 6. Veratrin

In view of the information furnished which was verified locally with the Ledger, the shortage noticed may be ignored.

6. Statement C.

Item No 2 Extract Ergot Liquid.

8 ozs observed to be short on 2-5-1939 have subsequently been taken to stock on 9-5-1940 as stated. Hence the value recoverable is only on the net shortage of 2¼ lbs.

7. Item No 5 Protorgol

One ounce of shortage has subsequently been taken to stock on 9-5-1940 as stated and hence the net shortage is 19 ozs only, whose cost is to be assessed and recovered.

8. Item No 18 Quinine Sulphate Tablets 5 grs.

The shortage of 0-13-6-40 observed, represents the net shortage after amalgamating the transactions recorded on pages 132 and 170 of the ledger for 38-39 Vol VI. The statement of the Senior Surgeon that excess issue has been shown on page 92 of Vol V of the ledger for 38-39 could not be verified as the same was not readily available.

NOTE—Contn. Sheet.

WD 08967—GPB—5,000—30-8-41

Before verification of new 'C' Secretariat Safety.

File No. of 194

General and Revenue Secretariat

Against items 1 and 3 it is observed in the remarks column that the source from which certain excess quantities have been noted in green pencil and taken to account cannot be made out. The excess quantities referred to relate to the period covered by the previous audit and perhaps represent those found as such at the time of stock verification. Further verification of the fact, however, was not possible as the stock verification reports for 37-38 were not made available.

2. In respect of other items in statement (c) the Senior Surgeon has accepted the shortages as existing and as such no remarks against these are called for.

3. It is, however, believed that the shortages reported by this Office against the remaining items not specifically referred to by the Senior Surgeon in the statements A, B and C referred to above (i,e, the shortages noted against the* marginally noted serial numbers of items in the statements of this Office) have been accepted in the absence of any remarks to the contrary.

4. A statement revised in the light of the above remarks of items of shortages included in statements (a) & (c) to the Senior Surgeon the value of which has to be assessed and recovered is herein enclosed for information and orders of Government.

M. Venkayya
Comptroller.

From,
C. Venkatarao Esq
Stock Holder,
Medical Stores M.G.
(Under Suspension)

To,
The Secretary,
To the Govt. of Mysore
Development Department
Bangalore

Sir, I beg leave to submit the copy of my humble petition dated 1/11/1939 to the Senior Surgeon with the Govt. of Mysore requesting him to kindly order the payment of my Salary which is in arrear and also to cancel the order keeping me under suspension as I have been honorably acquitted by the Court of law nearly two months back, for your kind perusal. I beg to bring to your kind notice that I have not been favoured with his benevolent orders till now on my above petition

In view of my inadvisable difficulties in maintaining a family of 8 souls all these days, I most respectfully request you to kindly arrange to expedite matters so as to put an end to the misery surrounding me and my family.

Hoping that my humble prayer will receive your immediate and favorable consideration, I beg to remain,

Sir,
Your most obedient Servant,
C. Venkatarao Esq

Bangalore
30/11/1939

The Senior Surgeon
with the Government of Mysore,
BANGALORE.

Respected Sir,

I humbly beg that you may be so kind as to order payment to me of my Salary which has been in arrears as I am in very miserable circumstances.

I very respectfully beg that the order keeping me under Suspension, pending the Court's decision in the Case launched against me, may graciously be cancelled as I have been honourably acquitted by the Court of Law, and I very earnestly pray that you will be graciously pleased to put an end to the misery surrounding me and my hungry children who are all awaiting the receipt of benevolent orders at your merciful hands.

I beg to remain,
Respected Sir,
Your most obedient servant,

Bangalore,
1st November, 1939.

ADDRESS:-

C.Venkatesiah Setty,
No.2, Sreenivasaiah Kurubarapet,

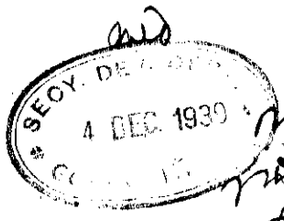
FROM

OFFICE OF THE SENIOR SURGEON IN MYSORE,

Bangalore, dated 1st December 1939



Memo, giving 2nd Sanction dated the Treasurer, may kindly be called for

Sm 4/12

Rajasevasakta
B. K. NARAYANA RAO, Esq., B.A., M.B.C.M., M.R.C.S. (Eng.), D.P.H., D.O. (Oxon.),
Senior Surgeon with the Government of H. H. the Maharaja of Mysore

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Sir,

I have the honour to submit herewith an application, in original, from D. Venkatesaiah Setty, Stock-holder of the Medical Stores (who is now under suspension since 29th June 1938) requesting reinstatement into his post and payment and salary since the date of suspension.

2. On receipt of this, I requested the Superintendent, Medical Stores, to submit a report regarding his previous record and the Superintendent has reported that there were 2 instances in 1932 when sums of Rs. 25-7-0 and Rs. 324-3-8 had to be recovered from the Stock-holder due to shortages. Copies of these letters are enclosed.

3. The Stock-holder was given the benefit of doubts and let off by the trying court on the score that suspicions, however strong do not constitute proofs in the matter of two specific charges in regard to only a few specified instances. Apart from this, there is no doubt that this official who was drawing a high pay of Rs.125 and had deposited a security of Rs. 5,000/- should have known and I think, did know, that he was also responsible for correctness of actual stock and of stock accounts, as otherwise, depositing such a large amount of security money to ensure mere arithmetically correct addition of a number of figures (as he claimed to be his only responsibility) would be thoroughly absurd. I think he did understand correctly the responsibility as is evidenced by his making good losses in 1932 and submitting his explanations when such losses were subjects of investigation. He never before contended that his business was merely to add figures on a page without even verifying the accuracy of the figures on a page with

without even verifying the accuracy of the figures added and the correctness of the actual stock. This is all a dishonest afterthought when criminal charges were framed against him.

4. I see from the evidence that he has corrected, overwritten and otherwise manipulated figures in individual items in ledger register which he would not have done if he believed he was not responsible for their correctness.

5. Further, his work in the Stores had not been satisfactory in that the stock accounts were not correctly maintained, pages torn and I understand that often he used to have custody of these books and was taking them home to look up the accounts.

6. It is evident that the complaint of theft in the Stores at this time when the annual stock-taking was about to take place, was only a camouflage for throwing the blame upon some third party as otherwise the short balances would be noted and explanations called for. Under these circumstances, I feel that his conduct was not above blame and I am of opinion that he should not be re-employed and that his services may be dispensed with.

I solicit orders.

I have the honour to be,

Sir,

Your most obedient servant,

B Murayana Rao 1/12

Senior Surgeon.

Copy of letter No. S.160 dated the 11th November 1[illegible] from the Superintendent, Medical Stores, Bangalore, to the Senior Surgeon in Mysore, Bangalore.

With reference to your No.C. 1355-1 dated 3-11-1949, I have the honour to state that on going through the records, [illegible] Holder has been made to pay in the year 1952 a sum of Rs. 2-7-0 and Rs. 324-3-8 towards the cost of missing Cutor[illegible] shortages found in the stock account of the Medical Stores, and Rs. 45-7-0 for writing of accounts unauthorisedly [illegible] Treasury.

His service Register is herewith submitted for kind reference and return.

Copies.

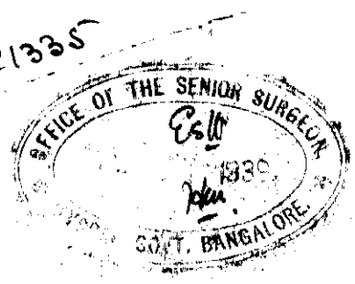
B Muddappa
Senior Surgeon. 9/12

Copy of letter No. C.1335-1 dated the 2nd November 39 from the Senior Surgeon in Mysore, to the Superintendent, Medical Stores, Banga ore.

The Stock-holder of the Medical Stores who is now under suspension, has applied for the disbursement of his salary etc. for reinstatement into service.

I have the honour to request him to submit the service Register of the Stock holder and a report about his work in the Medical Stores and whether he had been awarded any punishments or warnings during his service in the Stores.

C1335



To

The Senior Surgeon
with the Government of Mysore,
BANGALORE.

Respected Sir,

I humbly beg that you may be so kind as to order payment to me of my Salary which has been in arrears as I am in very miserable circumstances.

I very respectfully beg that the order - keeping me under Suspension, pending the Court's decision in the Case launched against me, may graciously be cancelled as I have been honourably acquitted by the Court of Law, and I very earnestly pray that you will be graciously pleased to put an end to the misery surrounding me and my hungry children who are all awaiting the receipt of benevolent orders at your merciful hands.

Rules for orders.
This is the stock-keeper (Store-Keeper of the Medical Stores who is applying for the Arrears of Salary &c.

I beg to remain,
Respected Sir,
Your most obedient servant,
C Venkatesiah Setty

Bangalore,

Respected Sir,

I respectfully beg leave to submit that with reference to your No.C.3531-64 dated 31-12-1938 and in continuation of the correspondence resting with my representation dated 30-12-38 the case launched against me was withdrawn by the Government in August 1939: but unfortunately, neither the order of suspension has been cancelled nor am I being paid the susbsistence allowance hitherto.

I beg to add that after having suffered untold mieries for two years I was forced by adverse circumstances to approach your goodself on 30-12-39 for early action and thereby grant relief to my forlorn family of 10 souls which is yet pending disposal. Since my sufferings have become acute I am forced to encroach upon your most valuable time once again seeking redress at your generous hands.

In the light of the forgoing circumstances, I respectfully pray that your goodself may be pleased tocause the susnension order cancelled and the subsistence allowance paid at an early date.

For which act of kindness and generosity, I shall ever remain grateful.

I beg to remain,
Respected Sir.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Sir,

With reference to your letter No.G.1932/Med. dated 3rd September 1940 for recoveries if any that should be made by forfeiture of the security deposit of Mr.C.Venkatesiah Setty, Stock Holder of the Medical Stores, I have the honour to forward herewith a copy of letter No.52 dated 1-9-1940 received from the Superintendent, Medical Stores, Bangalore regarding that the ex-stock holder cannot be assessed with any responsibility for the shortage now. The cost of 19 pounds quinine pills of 5 grs. each is reported to be Rs.479-12-0 at Rs.25-4-0 a pound at the prevailing rate in 1938.

As regards the losses amounting to Rs.5,326-3-6 towards cost of plague vaccine bulbs etc., I have already explained in my letter No.C.855-816 dated 3-5-1940 that no responsibility could be fixed on the stock holder and that these items be written off the accounts.

I have the honour to be,

Sir,

Your most obedient servant,

-- - --

With reference to your confidential Memorandum No. C.1335-17 dated 7.9.1940, I have the honour to report that looking into the special audit report of 1938, I find that there is no mention made fixing the responsibility for the shortage on any individual. As such I cannot presume now that the Ex-Stock-holder Mr. C. Venkatasiah setty has to make good loss. I am also not aware that the amount of Rs.5,826-3-6 was recommended to be written off, from the records here.

The cost of 10 pounds quinine pills of 5 grains each is Rs.252-8-0 at Rs.25-4-0 a pound at the prevailing rate in 1938, I therefore solicit your kind instructions in the matter.

Respected Sir,

In continuation of my humble representations dated 17-4-1940 and 2-5-40, I beg leave to submit that to my misfortune I have not received any reply to my above submissions so far.

It may not be out of place to mention over and over again that I am being forced by adverse circumstances and untold sufferings of my furlorn big family to approach your noble-self for kind and needful redress at your merciful hands.

In the light of the above circumstances I humbly pray that you will kindly consider the pangs of my starving children and cause payment to me of my salary which is in arrears and cancell the orders of suspension.

Praying for an early reply,

I beg to remain,
Respected Sir,
Your most obedient servant,

C. Venkateshiah Setty

NOTE—Contn. Sheet.

GM 44 [illegible]

OFFICE OF THE COMPTROLLER TO THE GOVERNMENT
OF HIS HIGHNESS THE MAHARAJA OF MYSORE

No. 531/C.LAD. Bangalore, dated 21 March 1940.

From

M. VIRARAJA URS, Esqr., B.A., B.L.,
Comptroller to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

SECY. DEV. DEPT. 24 MAR. 1941 GOVT. OF MYSORE

To

M.Venkatesa Iyengar, Esq., M.A.,
Secretary to Government of Mysore,
Development Department,
Bangalore.

Sir,

In continuation of this office U.O. reference ~~dated~~ No. 321/C.LAD. dated 17/23-12-1940 stating that information regarding items, if any, yet to be recovered or adjusted in the Stock accounts of the Government Medical Stores will be furnished by about the middle of February 1941, I have the honour to enclose herewith a detailed statement of excesses and shortages observed during the recent local audit of the institution for the year 1938-39 for the information of Government.

In this connection it may be stated that the present Superintendent Mr.A.B.Renu, assumed charge of the Medical Stores in the latter part of June 1939 and he took stock of all the drugs and articles available at that time. The shortages and excesses noted in the statement relate therefore to periods prior to his taking charge.

It was observed during audit that in the case of each Europe medicine, an unattested entry was made in red ink on 2-5-1939 in the balance column of the ledger and that this unattested balance was adopted as the basis for subsequent transactions. It was stated at the time of inspection by the Assistant Comptroller, Bangalore Local Audit Circle (3rd to 10th February 1941) that the red ink figures represented the stock found as on that date. No references were forthcoming regarding the stock taking arranged for and the officers who verified the stock. No action has also been taken by

the Department to reconcile the differences between the book balances and the actual stock as on that date or to obtain orders of Government regarding losses due to shortages.

The statement of excesses and shortages has therefore been prepared in two stages i.e., as on 2-5-1939 and as on 30-6-1939 in order to find out further differences if any between 2-5-1939 and 30-6-1939 As far as possible rates have been quoted against items of shortages with reference to the rate lists maintained in the stores for 1938-39 and wherever rates were not available, the rates as per catalogue of Bole Brothers with necessary centage charges have been adopted. In respect of serial Nos.159,179,295,298,299,301,302,305,306,310 and 313 rates were not available and hence their value column is left blank. The total value of shortages has therefore to be fixed after ascertaining the value in respect of these items also.

The opinion of the Senior Surgeon may be kindly obtained as to whether any items included in the statement can be accounted for as normal differences consequent on driage, shrinkage etc. A copy of the statement has been sent to the Senior Surgeon as an enclosure to the audit note.

I have the honour to be
Sir,
Your most obedient servant,

for Comptroller

Re: Representation of Mr. K. Venkatesiah Setty. Stockholder, Medical Stores. Bangalore.

C 1335-21

To,

The Senior Surgeon with the

Government of Mysore, Bangalore

Respected Sir,

With reference to my humble representations dated 1st November 1939, 30th November 1939, 30th December 1939, 17th April 1940, 2nd May 1940 and 6th January 1941, I beg leave to state that no consideration has been given to me as if it mattered nothing how long I was kept in this state of suspension, and as if it did not matter whether my case was considered fairly or unfairly. I beg to invoke mercy, justice and fairplay at your generous hands.

I humbly beg to invite your kind attention to letter No. G.6397 M.E.D 340 - 37 - 12 dated 30th December 1938 from the Secretary to the Government of Mysore, Local Self Government Department to the Senior surgeon, Bangalore and to state that the case launched against me was withdrawn by Government in August 1939. But so far neither the order of suspension has been cancelled nor am I being paid subsistence allowance and unfortunately, I have not had any reply till now to my above humble representations. I humbly beg that you will be so kind as to order payment to me of my salary which has been in arrears ~~and~~ I am in very needy circumstances and I respectfully beg that the order keeping me under suspension pending the court's decision in the case launched against me may kindly be cancelled as I have been honourably acquitted in a court of law.

It may not be out of place to submit that I have a large family of eight souls entirely depending upon me and the sufferings I have been subjected to can better be imagined by your

noble-self than my poor explanation. In kind consideration of the above facts we humbly and respectfully pray for early orders cancelling the suspension and making payment to me of the salary which has been in arrears.

I respectfully pray that I may kindly be excused for my intrusion upon your most valuable time.

Praying for an early reply,

I beg to remain,

Respected sir,

Your most obedient servant.

NDA.2

To L. S. G. & P. H.
Date 7.3.42
No. P. 1066

5512

To The Minister for Local Self-Government,
Government of His Highness the Maharaja
of Mysore, Bangalore.

Respected Sir,

The humble memorial of C.Venkatesaiah Setty, Stock-Holder (under suspension) of the Government Medical Stores respectfully sheweth,

1. That the Memorialist was appointed as Stock-holder on a pay of Rs. 75-5-125 on probation for one year and joined duty on 6-11-1924 after offering a security deposit of Rs.5,000/- in Mysore Government 3% Loan Bonds.

2. The Memorialist discharged his duties to the satisfaction of his superiors and duly earned his confirmation a-nd annual increments regularly and reached the maximum of the sanctioned scale of pay, i.e., Rs.125/- with effect from 6-11-1935.

3. As the result of a complaint of "House Breaking and theft at the Stores" made by the memorialist on 28-6-1938, the memorialist himself was arrested the very next day, along with the compounder and taken under custody and about 4 cases were launched against him by the Police.

4. While the compounder was acquitted by the Magistrate, the memorialist was committed to stand his trial at the Sessions Court in respect of one of the cases. That kind perusal of the elaborate findings of the Sessions Judge are fully convincing that the memorialist was not responsible at all for the occurance of the fraud nor could there exist any fraudulent intention in him.

5. That the Judgement has clearly and specifically brought out that the humble memorialist has not wilfully or deliberately attempted to introduce any untrue entries with the intention of cheating or defrauding and that the specific charges brought upon him by the prosecution were merely on suspicion and could not be supported by any evidence.

6. The Memorialist, in these circumstances expected to be restored to his post in the usual course and granted the emoluments withheld during the long period of his suspension in the course of his trial as also the half-yearly interest accrued on the Security Bonds deposited with the Government.

7. The above remedy has unfortunately not been vouchsafed to the memorialist in spite of repeated representations in writing which have not elicited any reply although it is now 2½ years since the memorialist was exhonorated in a public judicial enquiry and over 3 years since he was taken into custody and his pay was stopped.

8. In consequence, the memorialist and his family consisting of 8 members have been compelled in these hard days, to beg from door to door to keep body and soul together and as days are becoming harder, they may soon have to die of starvation if mercy be longer delayed by the benign Government.

9. The memorialist prays that in view of his honourable acquittal and also in view of cases where persons charged and acquitted under similar circumstances are mercifully reinstated (in the recent Electrical and Mandya cement cases Messrs. - T.K. Nanjappa and Krishna Rao) that he too may be graciously restored to his original appointment and be given his arrears of pay and accrued interest on his security amount.

G. Venkatachalam

MEMORIALIST.
(Stock-Holder, Medical Stores M.G.)
Bangalore.
(Under Suspension)

IN THE COURT OF THE ASSISTANT SESSIONS JUDGE,BANGALORE.

Dated, Bangalore, 10th day of April 1939.

P r e s e n t :- U.D.Narayana Murti,Esq.,B.A.,LL.B.,
Assistant Sessions Judge.

Sessions Case No.9 of 38-39.

Government of Mysore. ... Prosecutor.

-Vs-

C.Venkatesiah. ... Accused.

*_*_*

J u d g m e n t.

The accused in this case was employed in the Government Medical-Stores, Bangalore, as Stock-holder and he is charged with two offences offalsification of accounts under Section 477(A) of the Indian Penal Code, the first alleged to have been committed on or about 7.1.1937 and the second on or about 13.2.1937, The allegation in respect of the first charge is that he falsified the entry marked Exhibit P14(a) in the Stock Ledger book Exhibit P.14 by not including there in a quantity of 50 Lbs. of quinine Sulphate which had been taken into stock on 2.1.1937. The allegation in respect of the second charge is that he falsified the entry mark Exhibit P14(b) on the next page of the same ledger book by altering the total figure at the bottom of that page from 289 Lbs. 12 ozs. into 489 Lbs. 12 Ozs. i.e., by making the initial figure which was originally 2 into 4.

2. It is practically admitted that the accused was writing the total figures entered at the bottom of the pages in the above ledger book in ink under his initials. According to the accused he has written the figures in Exhibit P14(a) and P14(b) in ink on the basis of figures already written there in pencil by other clerks and he was only responsible for checking the artithmetical correctness of the figures so entered

by the Clerks.It is contended for the prosecution however,that the accused was directly responsible for the correct quantities and figures being entered in the above book and the prosecution has attempted to show that the accused must have deliberately and willfully entered the above figures in Ex.P14(a)and P14(b) incorrectly with the intention of reducing the quantity of stock of Quinine Sulphate(to which the ab ve ledger account relates) according to the book balanced and with the intention of thereby defrauding the Government in respect of the value of a large quantity of stock of Quinine Sulphate.Dr.Hiriyanniah P.W.10 was the Superintendent of the Medical-Stores during the period - mentioned in the above charge he held that office from 1.6.38 to 15.5.37, he has pointed out that the rules relating to the Governa ment Medical Stores are contained in the portion marked as Exhibit P(28)a in the Mysore Medical code which is a Government publication Exhibit (P28) Rules 212 of this code says that the Superintendent will be personally responsible for the safe custody, for the correct receipt and issue of all the Medicines and other articles in the Medical-stores and for guarding against wastage and loss. He also says that the accused was the Stock-Holder during the period of his office in the Medical Stores(there is no dispute on this point). He says However that the accused was responsible for all the stock and that everything was in his charge. According to his evidence even on 23.5.46 when he checked the stock of Quinine Sulphate for the first time which was more than 7 months before the time mentioned in the charges in the present case the actual stock found in the Stores of Quinine Sulphate was less than the Quantity noted in the ledger book as per Exhibit P1(b). The witness says that he has noted the words" to be counted" on that date as against the above entry. This was just before the witness took charge as Superintendent of the Medical Stores and Dr.Chokkam Iyengar P.W.12 was then actually in charge of the Stores as Superintendent Dr. Hiriyanniah admits that it was the ledger Clerk who was writing the entries in the

the ledger books and not the accused.He says that the accused has initialled at the foot of colum(6)on each page of the ledger book Ex.P(1).According to this witness the accused to see whether the balance entered in the ledger agrees with the actual stock on hand and it is for this purpose that the initials as above.He also says that the accused has written the figures for the closing balance o on each day and the opening balance on each day in Colum (6)of the ledger books,as for instance at the top of the 6th column of the page 186 of the ledger book Ex.P(14)where the initials of the accused are also found.This witness has initialled for the entry shwowing the receipt of 12 lbs.8 ozs.of quinine on 28-9-36in column(4)on the page 186 of Ex.P14.This shows that the Superintendent of the Medical Stores was expected to see that the correct quantity received was entered in the above column in the ledger book.He has also similarly initialled for another entry lower down on the same page for the receipt of a very large quantity of quine namely 3500 lbs. on 8.10.1936.The above large quantity of ~~quine~~ quinine had been received in the stores.According to the evidence of this witness as early as 17-9-36.This date is also noted against the above entry.Nevertheless the above receipt has been entered in the ledger book after a considerable delay amounting to about 18 days. This shows that the entries in the ledger book did not always correctly represent the actual quantities existing in the stores.

3. The really important page in the ledger book however whio relates to the two charges against the accused in the present as in page 189 of the ledger book exhibit P14. The top of this pge is torn of to a considerable extent and some entries at the tp are therefore not fully visible.The prosecution has not adduld any evidence to show who was actually responsible for the torin of this page at the topthoigh it is apparently suggested tht t accused had something to do with it.Dr.Hiriyanniah however,ke a very important admission regarding this point namely thawhe he saw the above page during the period of his office the p

of it was not torn.He was in chanrge of the Medica-Stores until 15.5.1937 i.e., for about 2 or 3 months after the date mentioned in the two charges.If he did not notice the tearing of the page during his term of office it becomes extremely probable that the page must have been torn after he handed over charge i.e.,long after the date mentioned in the charge against the accused.

4. This witness has further deposed that there was a receipt of 50 lbs. of Quinine on 2.1.1937 and this is entered on the above page against the date 2.1.1937 and initialled by the witness. The important point to be noted is that this quantity of 50lbs. received on 2.1.1937 has not been included in arriving to the total entry at the foot of the page in the column 6.The witness says that this quantity of 50 Lbs.was received by him and it was with the accused. He says the entries in pencil in the 6th column in this page were written by the accused.If those pencil figures are correct then a calculation will show that the above quantity of 50 lbs. received on 2.1.1937 has not been included in the total of 2802 lbs.and 5 ozs. mentioned at the bottom of column (6) on that page.The witness says that it is the accused who has put the pencil figures against voucher No.E.965 on that page. there is also an apparent alteration with regards to the figure(8) in the total of 2892 lbs. and 5 ozs. mentioned in the bottom of column (6) on that page. The accused has initialled that balance.Dr.Ramakrishna Rao,P.W.30 who was the Superintendent of the Stores from 16.5.1937 has deposed that the above initials are those of the accused.According to his evidence "The Stock Holder" i.e.,the accused was expected to check the totals and to see that the entries were correctly made in the ledger and i it was for this purpose that he was initialling at the foot of the pages in the ledger.

5. It is however important to note that according to the above evidence of Dr.Ramakrishna Rao the ledger keepers were making the entries in the ledgers.It is not alleged that the accused was making the entries at the top and bottom of column(6)showing the opening and closing balances.It is obvious that if the ledger

ledger keepers made a mistake with regards to the entries written by them that mistake would go into the balance written by the accused It cannot b assuemed that the ledger keepers did not make any mistakes at all. On the other hand the evidence already discussed shows there were discrepencies between the entries in the ledgers and the actual stock on hand. It is very likely that the ledger - keepers did make mistakes now and then. There is no justification for such mistakes only to the accused and not to the ledger keepers or the Sub Assistant Surgeon who is alleged to have dictated the entries to the ledger keepers, Dr. Ramakrishna Rao says that the Head Clerk in the Stores was the head of the Office and that he had to check the work of the ledger keepers and that the - accountant and the Head Clerk had to see the ledgers also. He says also that he accountant had to check the ledger entries regarding receipt and that the Head Clerk was expected to check the ledger with the indents received to see whether the issues were correctly posted. The witness says that the above officials were doing the above work to his knowledge. The corrections in the figures noted above in the case of the total written by the accused in the ledgers no doubt appear suspicious at first sight but Dr.Ramakrishna Rao has deposed that the accused has corrected the figures in the ledgers by putting the correct figures in place of the incorrect figures. This important Admission by such a responsible officer is very favourable to the contention of the accused namely that he was merely checking arithmetically the correctness of the figures put by the ledgers keepers and that he was merely writing in ink the correct figures on the basis of pencil figures written by the other clers which might possibly have been wrong arithmetically.The above admission of P.W.13 is also against the supposition that the accused corrected any figures fraudulently or with a dishonest intention.

6. It has been contended for the prosecution that both these errors in the accounts which form the subject matter of the two charges against the accused are calculated to profit the accused

accused and that therefore they cannot be accidental or due to inadvertance but that they must have been committed with a fraudulent intention by the accused,but it is significant in this connection that Dr.Ramakrishna Rao admits in his evidence that when he checked the stock quinine Sulphate on 9.6.37 there was at an excess of 10 lbs and 12 ozs.in actual stock as compared with the figure in the ledger on that date.This shows that some times errors were committed in the entries in the ledger which could not be profitable to the accused.This negatives to some extent the supposition that the accused must have deliberately entered false figures in order to defraud the government and to profit himself.Dor Hiriyanniah has deposed that when he first checked the stock on 26.5.36 the actual quantity of quinine sulphate found in the stores was 1159 lbs. He also says that the accused has written the figures found in Col.(6) of page 189 of the ledger exhibit P(1)and against the date 25.5.36 the figure 1159 lbs. 10 ozs. is found in column (6) in pencil. The witness has noted against this entry on 26.5.1936 the words" to be counted" this entry is marked as exhibit P(1)(b). The witness however says that after three days he again counted the stock i.e.,on 29.5.36 and on that date he has noted as per exhibit P1(c) that he counted and found total quantity correct.There is therefore not much significance in this portion of his evidence or in the entries exhibits P1(b) and P1(c).

7. It will be observed that in the case of the first charge relating to the entry exhibit P14(a) the error in the figures is caused by not taking into account a certain item of receipt (50 lbs. of quinine dated 2.1.1937) In this case of the second charge relating to the entry exhibit P(14)b. the error in the entry is caused by the increasing the quantity shown as issued. If there is a falsification in respect of these items the method of falsification in each case is therefore different. As already stated in my order pass in this case on 28.3.39 other instances of falsification of accounts by the accused will only be relevent if such falsifications are of the same specific nature as the falsification alleged falsification by a method different from the method employed

53

employed in the case of the present two charges has therefore been ruled out.The entry exhibit P1(a) in the ledger exhibit P1.dated 9.4.36 has been sought to be made use of as against the accused. According to the evidence of Dr.P.W.1 he checked the quantity of Quinine Sulphate in the stores on that date by reference to the ledger Exhibit P1 and he entered the figure there and initialled the same as per exhibit P1(a).This apparently means that he found the actual quantity to be 1949 Lbs.as noted there.The accused has apparently noted the quatity 1968 Lbs.8 ozs.as the opening balance on that date under his initials.There is also an issue of 8Lbs.12Ozs.noted on the same date.If this quantity is deducted out of the quantity noted by the accused the balance will be 1949 Lbs.and a few ounces.This does not show any serious discrepancy in the accounts and this entry is not therefore very significant even if it is relevant.This witness is unable to say whether the entry showing the issue of 18Lbs.and 12 Ozs. had been written there or not when he entered the above note as per Ex.P1(a).There is also some thing scored out in that entry and initialled by the witness and he does not remember the circumstances under which he scored it out.Exhibit P2 is the stock verffication list prepared by him when he inspected the stock in the stores.In this the entry relating to Quinine Sulphate is marked as Ex.P2(a)and it shows that on 9.4.1936 the stock according to the book balance was 1949 Lbs. 12 ozs.and that the actual stock found was 1949 Lbs.and that there was therefore a deficit of 12 Ozs.The witness says that it was not he who wrote the figures in Ex.P2(a).He does not know who wrote them.He cannot even say and he does not remember who wrote the list itself.He admits that in the figure 1949 the figures 19 are thicker than the other figures and this is also visible to anyone.The figures 19 in this entry seem to have been inserted after correction of some of other figures noted earlier.Even if we are to suppose that there was an actual deficit of 12 ozs.of Quinine Sulphate on the above date as compared with the figured entered by the accused this does not necessarily show that it was the accused who as responsible for the entry of the incorrect figure.Further this would be an instance of showing a larger quantity of stock in the balance column of the ledger and this is an error of a nature which is different from the error found

found in Ex.P14(a) in which the quantity of stock entered is less than actual quantity which ought to be there and the error in Ex.P1(a) is also different in nature from the error contained in Ex.P14(b) (as alleged) which has increased the quantity issued in the issue column. Under these circumstances the entries marked as Ex.P1(a) and P2(a) would not be relevant at all.

8. Dr.Hiriyaniah also says that he was checking the stock after he took charge as soon as possible and that he used to have a surprise checking some times and that this would be noted in stock book. If the accused had really entered in correct figures in the two instances forming the subject matter of the charges against him with a fraudulent intention it is not at all likely that Dr. Hiriyaniah would not have found it out in the course of his checking as above. According to Dr. Ramkrishna Rao nothing suspicious was noticed regarding the entries in the above ledger book until 29-6-38. This also is in favour of the view that the accused could not have been tampering the accounts fraudulently in Januagy and February 1937. -This also-is in f- PW-28 is now the account in the Stores and he was previously the ledger keeper. He says that nearly a year ago he had seen the entries Exhibits P-14(a) and P-14(b) i.e., before the complaint was made in the present case and that he did not notice them whether there were corrections in those entries. He speaks to the hand writing of the accused in the above entries. The evidence of this witness shows that he could not have noticed anything suspicious or unusual when he saw the entries made by the accused in Exhibits P-14(a) and P-14(b) a year ago. This witness admits that he saw put up the daily balances in the ledgers when he was writingthem. This shows that the accused was not putting up the daily balances in the ledgers himself and that he was checking those balances arthemetically and correcting them if found them to be arthemetically wrong. It further confirmed by what the witness says in his re-examination namely that on page 187 of Exhibit P-1 in the last colum the balance have been struck in pencil by the witness and that the figures in ink are those of the accused. This is exactly what the accused has stated on this point when was examined

by the court.In this case.The evidence of this witness proves therefore the contention of the accused on this point.

9. A note made by the accused as per Exhibit P11(a)regarding an order made in the order book kept in the Stores(order No.39 dated 14.5.32)by the Superintendent of the Stores is relied on by the prosecution as showing the responsibility of the accused in respect of the stock.This order relates to the noting of the weights of parcels sent by the post service in the gate passes.The order states that the Stock-holder and the Sub Assistant Surgeon should carry out the instructions regarding the above matter.It also states that the Accountant will note the weight of the parcels for entering into the contingent register. Even with regards to the noting of the weight of the above parcels the order makes the Stock-holder jointly responsible with the Sub Assistant Surgeon. It does not make him exclusively responsible and after all this has no direct bearing on the question as to whether the accused was responsible for errors in the figures entered in Ex.P(14)(a) and P(14)(b). It is admitted that the Stock-holder i.e., the accused has furnished security to the extent of Rs.5,000/- for discharging his duties satisfactorily. It is apparent that the above security has been obtained from him because a large amount of valuable stock passes through his hands and will be in his custody during certain period.This does not show however that the accused was responsible for entering the correct quantities of stock in the ledgers which is quite a different matter.

10. Dr. Brahman was the Sub Assistant Surgeon in the Medical Stores from September 1936 till May 1938 (P.2.23). He has clearly stated that the balances of stock in the ledger were being written by the ledgers clerks and not by the accused.He says the ledger clerks were working under the witness.This witness has clearly admitted that he was dictating the entries to the ledger keepers.This shows that the accused cannot be held responsible for any errors in the entries relating to the issue or receipt of stock in the ledgers.This witness also admits that when the stores were removed to the present building from the previous building he was sending the stock from the old building. This shows that the accused could not have been principally responsible

sponsible for the custody of the stock.P.W.23 another Sub.Assistant Surgeon who was in-charge of the Stores in 1936 has also stated that the Superintendent of the Stores was incharge of the stock in the Stores including quinine sulphate.This witness also stated that the accused who was the Stock-holder was sending the articles indented for to the packing section from the Stores.This gives us a clear idea of what the duties of the accused were in the stores.The witness also says that the stock-holder had a separate room where the drugs were stocked and from there he used to send the articles to the packing section and that the accused was incharge of that separate room where the dux drugs were stocked.This witness also admits that it was the Superintendent who had the keys of the Stores and the seal also with him and that all the goods were being received and issued under the supervision of the Superintendent.This witness makes a definite admission that no article could go out of the Stores without the knowledge of the Superintendent. It will therefore be seen that it was not possible for the accused to benefit himself by removing any of the stock clandestinely and to profit himself in that way after tampering with the accounts.P.W.24 is the Head Clerk of the Stores.He says the articles were all in the custody of the accused but he also admits that the Stock books were being entered by the ledger Clerks.P.W.26 is the ledger clerk of the Stores.He says that he was entering the ledger like Exhibit P1.and P.14 at the dictation of the Sub.Asst.Surgeon and that the Stock-holder was initialling the opening and closing balances in the ledger.This clearly shows that the responsibility of the accused was confined to the opening and closing balances only so far as the entries in the ledger were concerned.This witness makes the further admission that he was putting up the daily balances in the ledgers.This takes the further point clear namely that the accused was basing the balances entered by him on the balances put up by the ledger-keepers or the ledger Clerks.The witness also says that the ledger books used to be in the packing section and that they were being written there.This shows that it was not the accused who was in-charge of the writing of the ledgers and that he was also not the person who had the custody of the ledgers directly The witness also makes it clear that he was putting up the daily balances in the ledger in pencil as stated by the accused.There is absolutely any doubt that the version given by the accused o

this point is correct,namely that the ledger Clerks were putting up the daily balances in the ledger in pencil and that the accused was writing the balances in it on the basis of the above pencil figures put up by -the ledger clerks after making any corrections that the accused found to be necessary to make the total arithemetically correct.In other words -the accused was checking the arithemetical correctness of the totals in the ledgers and he was not responsible for the correctness of any entry of issue or receipt in the ledgers.

11. P.W.27 is a Government auditor who audited the accounts relating to the Stores subsequent to the complaint relating to this case. He merely says that he has made green pencil marks in the books and that there were audits every year of the accounts of the Stores.It is important to note that this witness does not say anything to show that the entries relating to the charges in the present case contained any error or any falsifications.P.W.36 is another ledger Clerk of the Stores and he has stated that the balances in the 6th column in ink in the stock-ledger were being put by the accused.He apparently means the opening and closing balances.There is no dispute on this point.He says the totals and the initials in Ex.P14(a)and P14(b)and P14(c) are in the hand-writing of the accused.There is also no dispute practically on this point.This witness says that the top of page 189 in Exhibit P14 was not torn when he was employed in the Stores.He was employed from January '34 to 8.3.1937 in the Stores and this clearly means that the above page must have been torn after 8.3.1937 i.e.,long after the period mentioned in the two charges against the accused.There is therefore nothing to show that the tearing of the above page is materially connected with the alteration in the entries mentioned in the charges.The witness says that the bottom of page 189 in the ledger Ex.P(1) also had not been torn when he was employed in the Stores.The tearing of this page is also not shown to have material connection with the alterstion of the entries in question.It is also not disclosed in the evidence for the prosecution that any enquiry was made by the authorities of the Stores as to who was responsible for the tearing of the above page or what the result was of any such enquiry. In any case there is no reliable - evidence to connect the accused with the tearing of the above page. This witness also states that he was making entries in the ledger book

according to the dictation of either the Sub.Asst.Surgeon or the Stock holder or both.This witness has added that if the Stock-holder dictated the witness used to write down and that after that the Sub Asst.Surgeon would repeat the same.It is not at all likely that the Sub Asst.Surgeon would repeat what had already been written by the ledger Clerk to the dictation of the Stock-holder.It seems to me that this witness has attempted to make the accused responsible for the dictation without any foundation for the same in fact.It is significant that no other witness has corroborated this witness on this point and that the Sub Asst.Surgeon has also not corroborated him regarding this.This witness seems to have given false evidence on this point.It is also not at all likely that the accused and the Sub.Assistant Surgeon would both be dictating the entries to be written in the ledger.This stated in cross examination that he gave his statement to the Police at Bangalore and that the Police Inspector P.W.32 took the statement of the witness.It was admitted however by the learned Public Prosecutor as noted in the proceedings on 6.4.1939 that the above witness was not examined by the Police at all in Bangalore City as deposed to by him. There can be no doubt therefore that this witness has ~~xxxx~~ perjured himself. This witness also stated that he does not know whether there is any rule to the effect the ledger entries should be entered to the dictation of the Stock holder but /he stated before the learned Committing Magistrate as per Ex.D(9) that the Senior Surgeon's orders were that the entries should be made in the ledger as things were packed and as they were dictated by the Sub Assistant Surgeon or the Stock-holder. The Senior Surgeon's orders however are contained in Exhibit D10.and there is nothing in them to show that the Stock-holder was required to dictate the entries. It may also be noted that according to the evidence of this witnesss given in the Committing Court it was the Sub.Asst.Surgeon or the Stock-holder who had to dictate the entries He has improved on this allegation in this Court by saying that the Sub Assistant Surgeon and the Stock-holder were both dictating the entries. The witness has clearly prevaricated and his evidence damages the case for the prosecution to a considerable extent. We may also note that according to the order of Senior Surgeon - as per Exhibit D10 the Stock-holder was required to enter in the Stock

Register items of receipts (item 8 in the order).The evidence in this case disclosed how ever that the stock holder was not entering the receipt in the stock register. The above witness has further admitted that the pencil figures of the daily totals used to be written by the witness or one Sundara Rao and others and that the stock holder used to do the arithmetical checking. This confirms the version of the accused.

12. It is significant that though dr. Hariyanniah was shown the entry exhibit P.14(a) in the witness box and though he stated that he noticed that some figures had, been written first and later altered in that entry he has not said anything to show that the accused was responsible in any dishonest manner for the correction of the figure in that entry. Nor he has said anything to show that the accused was responsible and not any other official for the non inclusion of the 50 lbs of quinine left out in the total. Even with regard to the entry in question namely exhibit P.14(b) he says he does not notice anything particular in that closing balance. There is nothing in the evidence of this important witness who was directly in charge of the stores during the period covered by the charges and who was the immediate superior of the accused at that time to show that the accused was the person responsible for any improper alteration in the above two entries. If the accused was really responsible for improper alteration in the above two ~~or~~ entries this witness ought to have been able to speak to that fact.He has not done so . This is very much in favour of the accused.This witness also says that he does not remember whether the ledger keepers were entering figures in pencil in the 6th column after noting each issue or receipt. This shows that it is quite possible that the ledger keepers were entering the figures in pencil as above. If so the accused would not be responsible for the

non -inclusion

non -inclusion of any item of receipt in the total. This witness has stated that the ledger keepers were also initialling the totals at the head of each page but this state does not seem to be correct. He sayshowever that the total was correctly checked by the stock -holder. This answer makes it very unlikely that the accused deliberately entered incorrect totals. The witness says he was also scrutinising this checking by the stock holder when irrigularities were brought to his notice and he ould not remember whether he found any irregularity during the period of his Office. He says he might or he might not have scrutinised the entries on page 189 in Exhibit P.14 or the entries on page 190. He definitely says however that he did not notice any omission or irregularities in the entries relating to quinine . He does not remember whether the alteration as per Ex.P. 14(a) was there during the period of his office and he does not also remember the condition of the entry Exhibit P.14 (b) at the time. The witness says that the 50 lbs of quine though not included in the total was taken, into stock. It makes it very improbable that the accused could have had any dishonest motive to enter the false total by non -inclusion of the above 50 lbs. There is no evidence to show that the accused was able to profit himself in any way by the non -inclusion of the above 50 lbs in the account or by the alternation of the figure in the entry Exhibit P.14(b). This witness says that the ledgers keepers were entering the entries to the dictation of the Sub Assistant surgeon and that this was being done in packing section. If the accused was also dictating the entries this witness would certainly have said so.He also says that the Sub Assistant Surgeon was the Head of the packing section. The above circumstances clearly show that the accused could not have dictated the entries and that he was probably not being present at all when the entries were dictated and written by the ledger keepers. This witness admits that he was responsible

61

responsible for the receipt and issue of stock, and that the stock holder only assisted him in this respect. He admits that the keys and seals of the stores were alway in his possession and he was personally bringing them and opening and closing the stores and sealing the same. This evidence would go to show that the accused could not have removed any stock from the stores dishonestly. If xxxxx so he could not have had any motive for falsifying the accounts The witness says that no removal of any large quantity of goods was brought to his notice during his period of Office. This witness definitely says that during the period of his office he checked the stock of quine with the book balance more than once and that so far as he remembers he did not make any note in the stock book or the order book because he did not find any irregularity. This evidence of Dr. Hiriyannian makes it highly improbable that the accused could have dishonestly falsified the entries in the accounts as alleg -ed by the prosecution.

13. With regards to the alteration of the figures in the entry Exhibit P.14(b) what the prosecution wants to make out is there could have been only one entry at the top of page 190 in that ledger book dated 8-1-1937 particulars of which are not now visible by the tearing of the page and this entry related to the issue of only 12½ lbs of quinine on that date sent to Sivasamudram. P.w. 2 is the Assistant Surgeon who was in charge of the Hospital at Sivasamudram at that time and he says that he sent an indent for 10 lbs of quinine as per Exhibit P 3, and that he got 12½ lbs as per invoice Exhibit P4(a). This witness has not been cross examined and we may accept his evidence as quite correct. From the letters left visible at the top of the torn page 8-1-1937 also we are able to see that the entry must have related to an issue of stock sent to Sivasamudram. If only the aoove quantity of 12 lbs is added to the other quantities mentioned

mentioned on that page as issued from the stores the total will not be 489 lbs and 1 ozs as noted at the bottom of that page and there will be a difference of about 200 lbs between the actual total and the total entry as per exhibit P.14(b) . Unless therefore there was an issue of about 200 lbs entered above the entry which is now dated 8-1-1937 on that page the total entry at the bottom of the page would not be correct.It is contended for the prosecution that there could not have been any such entry of issue above the entry dated 8-1-1937 because a correct superposition of page 190 on the previous page 188 will show that no space is left below the printed headings at the top of the page to write any such entry. it is pointed out for he defence however that this would not at all be a conclusive test. Though it is very improbable that another entry would have found a place above the entry dated 8.1-37 on page 190 of exhibit P.14 it is not possible for us to conclude that it would have been absolutely impossible to write any such entry . Further though P.w. 23 the Sub Assistant surgeon has deposed that the invoices for issue of stock from 3-12-1936 to 11-1-1937 are contained in the invoice books exhbits P.52 ,p.53 and p4 no particular invoice has been pointed out as mentioning the above quantity of 12½ lbs sent to Sivasamudram on 8-1-1937. P.w. 2 has deposed no doubt the particular invoice is exhibit P4(a) but by reference to Ex.P4(a) it is not possible to make that 12lbs of quinene were sent on 8-1-1937. It is also admitted in the evidence for the prosecution that some times stock was issued from the stores with out indents or invoices and merely in respnse to letters,telegrams and even oral requests so that it is quite possible that an issue of stc

issue of stock might have been made which was entered at the top of the page 190 in Exhibit P. 14, which was mentioned in any invoice or indent. P.w.23 admits that there have been instances of indents not being entered in the ledgers. It is therefore not possible to infer from the evidence adduced for the prosecution with any certainty that no other entry except an entry of issue of 12½ lbs of quinine could have been contained in the portion of page 190 of Exhibit P. 14 which has been tornout.

14. Even supposing that only the entry relating to th issue of the above quinine could be contained in that portion it is necessary to further suppose that the entry actually contained therein was correct and that there was no error in the same. If the ledger clerk or other official who write that entry or the Sub Assistant Surgeon who didtated that entry had committed a mistake in respect of the quantity that entry would have contained that mistake. It is not shown by any satisfactory evidence that the Sub Assistant Surgeon dictated the entry correctly according to the invoice and that t e ledger clerk took down the quantity correctly and wrote correctly. As already stated there does not appear to be any invoice of 8.1-1937 containing the quantity of 12½ lbs of quinine, considering all the above circumstances, I am of o inion that the prosecution has not made out that the accused was responsible for the mistake if any, contained in the entry exhibit P.14(b) and that it is also not satisfactorily proved that there is as a matter of fact a mistake in that entry.

15. P.ws. 14 to 21 have merely given evidence about the quantities of quinine that they indented for and that were supplied to them regarding which the entries on page 189

in the ledger book Ex. P(1) have been entirely or partially torn, The bottom of this page has been torn out to a considerable extent. These entries have nothing to do with the entries relating to the present charges against the accused. They relate to a period of 8 months earlier. I do not think that they are relevent at all and even if they are relevant they do not show anything with regards to the responsibility of the accused for the entries mentioned in the charges.

16. P.w. 9 was the Superintendent of the stores in 1933 and the accused was the stock holders also at that time. This witness has deposed that the accused was physically keeping the stock with him. He says that the stock was being issued by the stock holder on the orders of the Superintendent. This witness does not remember exactly who was totalling the actual quantities in the closing balance but he says that it was duty of the stock holder to do it. He has also added that the ledger clerk was entering those totals some times and that some times the stock holder was doing it. It is more or less the same version as that given by the accused. The witness says because the stock holder was responsible for the stock he had to verify the balance and initial them. The witness speaks about an explanation being required from the accused with regards to the destruction of some medicines in the stores and the accused has given his explanation on that point as per Exhibits P.15 , 16 and 17. I do not think this has anything to do with the present charges against the accused. It is not at all relevant. The accused has admitted in his explanation . Exhibit P.17 that he was held responsible for all the stock in the stores, the value where of on any day works up to several thousands of rupees. But the accused points out in the same explanation

same explanation certain inconveniences existing in the stores which according to him prevented perfect care being taken of the stores. Exhibit P. 18 relates to an order of 1935 and is not relevant. The above exhibits might only be relevant to prove the hand writing of the accused on which point there is practically no dispute. Dr. Noronha says that he inspected the stores on many occasions and Ex.P. 26 is the list prepared by him in 1933 in connection with certain inspections. Exhibit P 25 is the report submitted by P.w. 9 to the senior Surgeon in reply to an enquiry from the Senior Surgeon regarding certain difference noticed in the inspection of Dr. Noronha. In this report certain defects noticed have been said to be unavoidable owing to the existing conditions in the stores. The Senior surgeon has inspected the stores in December,1937 and Ex.P. 66 is the inspection report signed by him. He does not seem to have noticed any material irregularities . As per Ex.P.30(b) the Senior surgeon found that the ledgers were not filled in immediately after the articles were received or issued but this relates to the year 1934,and this point would not at all be relevant. The senior surgeon has noted as per Ex.P. 30(a) in the inspection minute book of the stores in 1938 that he found everything in order. In Ex.P.30(b) also the same remarks are made. But it is noted there that the ledgers are filled in after the indents are supplied and this leads to complications that directions were given by him to the effect that entry in to ledgers should be effected as soon as the article is received or issued in the packing section. This was in 1934 . At the end of 1935 .The senior surgeon has again noted as per exhibit P. 30(c) that that the ledgers were posted up to date. In December,1936 also thesenior surgeon has noted as per Exhibit P.30(b) that he found everything in order and even in december,1937 he has noted as per exhibit P.30(e) that the records and registers were kept quite uptodate.

16

17. P.w. 33 is the Government Auditor who audited the accounts of the stores in 1931. Exhibit P. 68 is his report. There is nothing relevant in this . P.w. 34 is the accountant who audited the stores for the period beween 1933 to 1935 and Exhibit P. 69 is his report. This also relates to a period much anterior to the period with which we are concerned P.w. 35 is the auditor who has audited the accounts for the period between July 1935 and december,1936 and even that only for a portion of that period. Exhibit P. 71 is the report jointly prepared by him with another auditor. He says he noticed several objectional items but he does not know whether explantions were given in respect of those. He says that in all the audit reports there is a mention of previous objections not being remedies. Even if that is so it is not shown now all this is relevant.

18. The judgement of the High court in 38 Mysore High Court reports page .....has been cited for the prosecution to show that even if the intention with which false entries were made by the accused was to conceal a fraudulent dishonest act previously committed,the intention will be to defraud within the purview of section 477(a) of the Indian Penal code. In the present case however it is not shown in the first place that the above two entries namely Exhibits P.14(a) and P.14(b) were deliberately and willfully falsified by the accused and secondly it is not shown that such falsification,if any,was to conceal any fraudulent and dishonest act previously committed. The above authority will therefore be not helpful to the prosecution in this case. The cases in A.I.R.1934 Lahore,455 ,1934,Patna 132 and 1936 Bombay 379 have been cited for the accused. They show that the accusedought not be convicted on a finding that he committed some act at a particula time which is not the time mentioned in the charge against him.

In the present case the alleged falsifications and the tearing of the pages in the ledger book mentioned above are said to have been discovered many months after the dates mentioned in the charges against the accused. There is no evidence to show satisfactorily that the above ledger book had been tampered with by the accused during the period covered by the charges in a dishonest way.

18. P.w.11 was the Superintendent of the stores between 1929 and 1933. This witness has clearly deposed that because the stock holder was responsible for arithmetical corrections of the balance he was initialling them. This is in favour of the versio given by the accused. Exhibit P. 45 is the stock verification report prepared by him. This relates to the year 1931 and is not relevant. This witness admits that he has made a report that he could not fix the responsibility for the discrepancies found by him on any one. He says that there was no order of the Govt. or of the senior surgeon during his period of office to the effect that the stock holder was responsible for the stock. He has not seen anything in writing to show that the stock holder was responsible for the stock. His evidence would therefore go to show that it was not the stock holder who was responsible for the stock P.w.12 was the next Superintendent of the Stores.He has deposed that the ledger clerks were making the entries (apparently in the ledgers) only under the stock holders directions. This is not corroborated by any other superintendent or any other responsible officer. Exhibit P. 48 is the stock verification report signed by the witness,and Exhibit P.50 is a similar report. These relates to a period much anterior to that now in question and are not relevant . Exhibit P. 19 is the copy of the audit report relating to the year 1932 and 1933. This is also not relevant. This witness has also admitted that it was the ledger clerk who was putting the totals in the ledger books and that stock holder was checking them arithmetically.He also says definitely that the ledger clerk was putting the balance,i

balance in column (6) in the ledger in pencil. This is exactly the version of the accused. This witness admits that Ex. D(i) was written by Sreenivasa Rao, the ledger clerk who was then officiating. The witness also seems to have signed this. It is stated therein that there are certain variations between the book balance and the actual stock and that the difference in all the items is reconciliable if subsequent issues are taken into consideration. Ex.D3 is only a copy of exhibpt P 30(b) already noticed. Exhibit D4 is a letter sent bu the witness to the Senior surgeon and written by the Head clerk in which it is mentioned that the ledgers are brought up to date and that the book balance are not struck in all the items, P.w. 13 is the officer who took the stock in the stores in 1938 under the instructions of the Senior surgeon. He says that it was in April or May, and that he submitted a report to the Senior surgeon but he has not got a copy of it. He said that he was in process of taking stock when this case was started but he has stated later that the list referred to by him was prepared after the complaint of theft relating to the present case was made. His evidence is practically useless so far as this case is concerned.

19. On 28-6-1938 the accused made a complaint as per ExhibitP6 alleging that he he owpened the door of the stores on that mor ning he found articles scattered in his room andin the opening room and also in the room where quinine was stored and that he also found that the vendilator of the stores room was damaged. He also seems to have represented in that complaint that articles were lost to some extent. According to him it was a case of house -breaking which required through investigation. So far as this case is concerned the above complaint of theft i practically not relevant. We have nothing to show that it was a false complaint. Dr. Ramakrishna Rao has deposed that it was he who prepared the draft of Exhibit P. 60 and that he

he asked the Head clerk to type it and get the signature of the accused. Dr. Ramakrishna Rao also says that he found that the ventilator had been lefted up and that a wiregauze had been cut open and that the things inside the stores room had been scattered. If Dr. Ramakrishna Rao had entertained any doubt bout the allegations of the accused with egards to the house breaking he would have certainly said so.

20. considering the whole of the evidences and all the circumstances discussed above, I am of opinion that there is no satisfactory evidence to show that the accused wilfully or deliberat interduced any errors in the entries exhibit P.14(a) or P.14(b) with a fraudulent intention. The two offences with which he is charged have not been satisfactorily proved. No doubt the fact that in the case of the entry exhibit P.14(a) there is a manifest non inclusive of 50 lbs of quinine entereded in the le ger and the fact that in the case of the entry exhibit P.14(b) the figure(4) has been apparently altered in substitution for s other figure raised suspicion against the accused butit is a well established principle of the criminal law as administered our courts that a person cannot be convicted on mere suspicio Beyond suspicision there is no satisfactory proof of the guil of the accused. All the three assessors have given their opinion that the accused is not guilty. For the reasons already stated I also find that the accused is not guilty either of the offences with which he is charged under Sectio 8, of the Indian Penal code. He is acquitted.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

READ:

Correspondence ending with ~~un-official~~ note C.1335-38 dated the 14th March 1942, from the Senior Surgeon, furnishing his remarks, regarding the shortages and losses which should be recovered from the Security deposit of Mr.C.Venkatesiah Setty, ex-stock-holder, Medical Stores, and the representations made by Mr.C.Venkatesiah Setty.

ORDER NO.

The Senior Surgeon has stated that the ~~shortag~~ shortages and excesses referred to by the Comptroller to Government include the items mentioned in statement "A" sent by him which may be considered to be ~~x~~ of a normal nature and the drugs, etc., referred to in the statements "B" and "C", ~~and that they~~ cannot be considered to be real shortages as they are probably due to the items not being properly charged off in the ledger: The Comptroller to Government who was ~~reported~~ requested to get these items audited has sent a revised statement (appended hereto) of the items included in the statements "B" & "C" sent by the Senior Surgeon and has suggested that the value of these items has to be assessed and recovered from the stock-holder.

Government have carefully considered the circumstances of the case and the representations of the stock-holder and are pleased to order as follows:-

(4) ~~The cost of plague vaccines, viz.,~~ Rs.5500-4-6

included in the statement "A" sent by the Senior Surgeon and the cost of packages amount to Rs.535-15-0 will be written off the accounts.

(2). The loss to be made good may be assessed at Rs.1,531/- as computed by the Comptroller, in the absence of satisfactory accounts or explanations by the Department. Government direct that a sum of Rs.1,000/- (Rupees one thousand only), out of the security deposit of Rs.2,000/- of Mr.C.Venkateshwarlu Setty be forfeited and the balance returned to him. The amount forfeited will be adjusted towards the loss of Rs.1,531/-, the balance of Rs.531/- being written off the accounts.

(3). The services of the stock-holder Mr.C.Venkatesiah Setty will be dispensed with.

Secretary to Government,
Law Department.

Med 202-42-2

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

READ:

Government Order No.G.8324-35/Med.202-42-1 dated the 15th January 1943, directing that a sum of Rs.1,000/- out of the security deposit of Mr.C.Venkatesiah,Setty, ex-Stock holder, Medical Stores, be forfeited and the balance returned to him, the forfeited amount being adjusted towards the loss of Rs.1,531/- and the balance of Rs.531/- written off the accounts, and that the services of Mr.C.Venkatesiah Setty be dispensed with.

ORDER NO. G 10261-2 dated 27/2/43.

Apart from the shortage in quinine sulphate, the losses reported by audit to have occurred at the Medical Stores comprise the following items:-

		Rs.	A.	P.
1. Plague vaccines ..		5,500	4	6
2. Cost of packages ..		325	15	0
TOTAL		5,826	3	6

The Senior Surgeon has reported that in the case of 1, there is no real loss, the apparent shortage being due to wrong accounting and that in the case of (2) it is not possible to fix responsibility. He has accordingly recommended that the above mentioned sum of Rs.5,826-3-6 be written off the accounts. Government are pleased to sanction the above proposal of the Senior Surgeon.

S.O. No.6.

Copy of letter No. 531/C.LAD dated the 21st March 1940 from the Comptroller to Government, Bangalore, to the Secretary to Government, Development Department, Bangalore.

In continuation of this office U.O. reference No. 321/C.LAD dated 17/23-12-1940 stating that information regarding items, if any, yet to be recovered or adjusted in the Stock accounts of the Government Medical Stores will be furnished by about the middle of February 1941 I have the honour to enclose herewith a detailed statement of excesses and shortages observed during the recent local audit of the institution for the year 1938-39 for the information of Government.

In this connection, it may be stated that the present Superintendent Mr. A.B. Renu, assumed charge of the Medical Stores in the latter part of June 1939 and he took stock of all the drugs and articles available at that time. The shortages and excesses noted in the statement relate therefore to periods prior to his taking charge.

It was observed during audit that in the case of each Europe medicine, an unattested entry was made in red ink on 2-5-1939 in the balance column of the ledger and that this unattested balance was adopted as the basis for subsequent transactions. It was stated at the time of inspection by the Assistant Comptroller, Bangalore Local Audit Circle (3rd to 10th February 1941) that the red ink figures represented the stock found as on that date. No references were forthcoming regarding the stock taking arranged for and the officers who verified the stock. No action has also been taken by the Department to reconcile the differences between the book balances and the actual stock as on that date or to obtain orders of Government regarding losses due to shortages.

The statement of excesses and shortages has therefore been prepared in two stages i.e., as on 2-5-1939 and 30-6-1939. As far as possible rates have been quoted against items of shortages with reference to the rate lists maintained in the stores for 1938-39 and wherever rates were not available, the rates as per catalogue of Role Brothers with necessary centage charges have been adopted. In respect of serial Nos. 159, 179, 295, 298, 299, 301, 302, 305, 306, 310 and 313 rates were not

not available and hence their value column is left blank. The total value of shortages has therefore to be fixed after ascertaining the value in respect of these items also.

The opinion of the Senior Surgeon may kindly be obtained as to whether any items included in the statement can be accounted for as normal differences consequent on draiage, shrinkage etc. A copy of the statement has been sent to the Senior Surgeon as an enclosure to the audit note.

Assistant Comptroller

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

Comptroller's Office, Bangalore.

No. 253/C.LAC./244/B.LAC 109 Dated the 10th November 1941

V. Vedavyasacharya Esq., B.A.,
Development Secretary to Government,
Bangalore.

Med 11/11

GEN. & REV. BRANCH 11 NOV 1941 GOVT. BANGALORE

Sir,

With reference to your un-official reference No.C.O.98/41-42 dated 24-10-41 forwarding the file relating to certain shortages observed in the course of local audit of the stock accounts of the Government Medical Stores for remarks, I have the honour to state that the items of shortages will be verified locally by the Auditors of Bangalore Local Audit Circle in the light of the information furnished by the Senior Surgeon and the file will be returned with my further remarks soon after the local verification is over.

I have the honour to be,
Sir,
Your most obedient servant,

M. Venkataraja Urs

Comptroller.

10/11

43.	Ichthyol.	0 7 0	8 oz.	The tin may have been leaky.
46.	Lint Belladona.	0 10 0	10 oz.	Small difference in putting large quantities.
52.	Liquor Potaase.	2 2 0	4 lbs.14 ozs.	May have been spoiled as are articles returned from institution.s
53.	Liquor Sedans.	0 13 0	2 ozs.4 drs.	Small difference in putting large quantities.
55 ~~56.~~	Mag. Sulphus.	2 2 0	4 lbs.	-do-
67.	Pill Hydrargiri.	0 3 0	1 oz.	May have been spoiled.
119.	Ung. Hydrarg Nitratis.	0 10 0	8 oz.	-do-
124.	Acid Oxalic.	0 10 0	9 oz.	-do-
128.	" Tartaricum.	0 12 0	12 ozs.	Small difference in putting up loose quantities.
133.	Ammoni Bromide.	0 2 0	1 oz.	-do-
139.	Calcium Lactus.	0 8 0	8 oz.	-do-
140.	Calcium Sulphus.	3 1 0	12 oz.	-do-
144.	Colloidum.	8 6 0	2 lbs.14 ozs.	Gets solidified and became unserviceable.
174.	Phenolphthaline.	0 10 0	1 tube.	Damaged and spoiled.
177.	Potas Caustic.	0 4 0	2 oz.	Became spoiled.

182.	Pulvis Kino Co.	3	8	0	8 oz.2 drs.	Spiled.
178.	Potas Carbonas.	0	5	0	4 oz.	Small difference in putting up large quantities.
189.	Serum Anti Tetanic.	1	13	0	7 tubes.	Discoloured and leaky.
199.	Spirit Cinnamoni.	5	11	0	15 oz. 4 dr.	Prepared probably in the stores and sent for dispensary
204.	Syrup Aurantii.	0	9	0	1 lb. 2 oz.	Solidified and become unserviceable.
205.	" Tolu.	1	11	0	3 lbs.2ozs.	-do-
209.	Tr. Asafoetida.	0	10	0	4 ozs.	Small difference in putting up large quantities.
213.	Tr. Valarin Ammoniata.	0	4	0	6 ozs.	-do-
218.	Ol. Theobromate.	10	10	0	7 lbs.	Spiled and became unserviceable. Condemned on 6-2-41.
268.	Borax.	0	13	0	5 lbs. 1oz.	Small difference in putting large quantities.
293.	Acid Acetic pure.	0	7	0	8 ozs.	Items Nos. 218, 293, 295, 296 and 317 were condemned by the Senior Surgeon anddestroyed.
295.	Enrlich Tri Acid Stain Powder.	1	9	9	1 oz.	
296.	Fuchsine pure.	9	7	0	6 ozs.	
307.	Tabloid Bland.	0	13	0	2	
317.	Lens manifying.	2	4	0	1	
		70	11	9		

Small differences in weighing small and large quantities; all these items may kindly be waived, considering the heavy transactions of the Government Medical Stores.

'C o p y.'

M E Emanuelle Stores Clerk
for Offg. Senior Surgeon.

Statement 'B'.

SOME MAJOR ITEMS SHOWN AS SHORTAGE: BUT ARE REALLY

	Shortage. lb. os. Dr. Gr.	Value. Rs. as ps	
1. Chlorotone Powder.	17 12 0 0	262 12 0	In 38-39 ledger there are two folios opened. One for Chlorotone and the other for Chlorobutol. Issues noted in both the ... os. Shortage shown in this item. excess to that extent i... found in the other item chlorobutol.
2. Neosalvarasan.	100 tubes.	90 0 0	In 37-38 ledger Neosalvarasan & N.A.B. were mixed up. But in 38-39 ledger the items are taken inseparate folios-- 24 tubes of N... lvarasan issued as N.A.B. to District Medical Officer Chitaldrug and 76 tubes of N.A.B. are in excess (38-39). Hence the shortage of 100 tubes is explained (24+76=100).
3. Sod. Carb. Pure.	71 0 0 0	31 4 0	Brought on std ... in 38-39 ledger folio 5 in July 1939.
4. Veropal Substitute.	4 14 0 0	48 3 0	4 lbs. 14 ozs ... was shown as shortage because the book balance of 38 was not brought on to ledgers of 38-39 but in that ledger of 38-39 folio 246 Vol. I. the auditor has shown as one ounce excess.
5. Bed Pan Brass.	Four.	5 1 0 The cost of bed pan since found.	3 tin bed pan are omitted when the book balance was brought forw...d to the new ledger of 38-39 and oneshort on 27-6-1939 when Dr.A.B.Benu took charge which is subsequently ta...n to stock on 1-7-40/21-3-1941.
6. Veratrin.	0 2[illegible] 0	24 8 0	2 ozs.destroyed - vide Ledger 37-38 vol. IV.
	Total	495-12- 0

Offg. ~~Senior Surgeon.~~

STATEMENT 'C'.

Some of the Major items shown as Shortages in the Recent Audit Objections June 1940.

Sl. No.	Name of the drug.	Shortage.	Value.	Remarks.
		lb. oz. dr. gr.	Rs. as. ps.	
1.	Acid Nitric.	41 15 0 0	25 5 0	In ledger of 37-38, Folio 39, 41 lbs. 10 oz. 4drs. taken as excess and brought on to next year's ledgers wherefrom this excess is taken and noted in green pencil is not clear.
2.	Ext. Ergot Liquid.	3 4 0 0	16 4 0	Taken 2 lb. 12 ozs. short by Dr. L.Ramakrishna Rao on 2-5-1939 and 8 ozs. short on 6-7-1939 by Dr. A.B.Renu, which is subsequently taken to stock in. There may perhaps be items which do not find entry in the ledger.
3.	Glycerine.	225 5 0 0	179 9 0	In ledger of 37-38, Folio 359, 309 lbs. 2 oz. 4 drs taken as excess and brought on to next year's ledgers wherefrom this excess is taken and noted in green pencil is not clear.
4.	Mag. Carb.	68 12 1 20	27 4 0	68 lbs. 1 oz. 1 dr. 20 grs. taken short by Dr. L.Ramakrishna Rao on 2-5-1939, perhaps due to omission of entry.
5.	Protorgol.	0 20 0 0	71 0 0	10 ozs. taken short by Dr.L.Ramakrishna Rao on 2-5-1939 and 1 oz. on 4-7-1939 by Dr.A.B.Renu which is subsequently taken to stock on 9-5-1940.
6.	Zinc Scilla.	28 1 0 0	15 13 0	28 lbs. taken short by Dr. L.Ramakrishna Rao on 2-5-1939. Some items though supplied may not have been charged off.
7.	Argyrol.	0 7 0 0	36 7 0	7 ozs. taken short by Dr.L.R.Rao on 2-5-39 -do-
8.	Alcohol Methyl Extra pure.	2 8 0 0	28 15 0	2 lbs. 8 oz. taken short by -do- -do-
9.	Gentian Radix.	32 0 0 0	26 0 0	32 lbs. taken short by Dr.L.Ramakrishna Rao on 2-5-1939. Some items may not have been charged off though supply was made.
10.	Anti diphtheritic Serum.			

					2-5-1939. Perhaps not charged off in ledger.
11.	Theocine Sod. Acetate.	0 5 0 0	56 4 0		5 oz. taken short by Dr.L.Ramakrishna Rao on 2-5-1939 perhaps not charged off in ledger.
12.	Electro Magnetic Battery.	one	24 8 0		Actually one was in excess- vide ledger of 38-39 folio 5.
13.	Tube I.R.	616¼ yards.	115 9 0		616¼ yards taken short by Dr.L.Ramakrishna Rao on 2-5-1939 perhaps not charged off in the ledger.
14.	Wool Absorbent.	50 0 0 0	32 14 0		51 lbs. taken short by Dr.L.Ramakrishna Rao on 2-5-1939 perhaps not charged off in the ledger.
15.	Winchester Bottles 80 ozs.	31	32 15 0	)	No regular accounts were kept or entries made in the ledger of these items.
16.	-do- 32 ozs.	112	46 11 0	)	
17.	Quinine Sulph. Tablets. 2 grains.	2 5 9 0	57 15 0		Lbs. 3-8-6 shown as shortage in 37-38 ledger folio 174 vol. VI and subsequently in ledger of 38-39 Folio 174 Vol. VI lbs. 2-5-3 is shown as shortage during special audit. This shortage cannot be explained now. Perhaps the several supplies may not have been charged off.
18.	-do- 5 grains.	0 13 6 40	21 3 0		Lbs. 8-7-4-0 shown as excess in audit against 1 lb. book balance of ledger 37-38 folio 180 vol. VI which is not carried to the next ledger of 38-39 folio 132 and 170; but excess issues is made. Finally in folio 170 of 38-39 a shortage of 0-13-6 is shown. Again in ledger of 38-39 folio 92 Vol. V there is excess issue shown.
